

I and my family are opposed to any changes that would allow the annoying phone calls to begin again. We prefer to enjoy our nights together as a family without the continuous interruptions from solicitors. I sometimes have to work of a night, becoming a day sleeper. this is not possible with the phone solicitors starting at 8:00 Am. I have two children in school so I don't feel I can shut the ringers off on the phones, in case of any emergency that the school may need me.

Thank You for your time, John Carpenter
